## 4 Company History

Om Security Solutions Private Limited was founded in the year of 2010 by Mr Golpal Singh Tanwar. He started this business because he was very enthusiastic about the welfare of people and wanted to generate employment for retired army veterans and other passionate youth. It was a very humble beginning with no more than five security staff appointed at a residential complex. However, the passion with which the company was started, knows no bounds. The company soon started to expand rapidly. Thanks to the beloved clients as they did not hesitate (rather volunteered) to refer us to their connections. We are one of the fastest-growing security services company in the state. Going forward we are planning to go interstate very soon.
